

COVID-19 Customer Safety in a Marina Environment

Premier Marinas Ltd

Review Date: 5 January 2021

Reviewed by: HSE Manager

This document has been created to help Premier Marinas' customers understand how to co-exist safely with other customers and staff during the Covid-19 pandemic in a marina environment, keeping as many people as possible 2 metres apart from those they do not live with and ensuring the safety of all who use our marinas. 1m+ separation with risk mitigation measures in place will be acceptable in some situations. This document gives you a practical framework to think about what you need to do at your marina when visiting your boat during the Covid-19 pandemic.

Current government guidance should be adhered to by all at all times in particular the National Lockdown Stay at Home Guidance.

In general, when around other people stay 2 metres apart from anyone not in your household i.e. the people you live with or your support bubble. Where this is not possible, stay 1 metre apart with extra precautions (e.g. wearing a face covering etc.). Meeting people outdoors is safer than meeting people indoors because fresh air provides better ventilation.

It is the responsibility of the boat owner to ensure that current government guidelines are followed when visiting a Premier Marina.

All customers are advised to follow current government guidance and regularly wash hands as appropriate. Measures put in place at Premier Marinas must be adhered to by all.

This document should be read by Premier employees in conjunction with Premier's COVID-19 Safe Operating Procedure and individual marinas' COVID-19 Risk Assessment as well as existing Risk Assessments and SOP's for activities that take place on site.

Area	Category / Activity	Associated Health & Safety Risk	Implemented Measures
1. Marina Receptions & Boatyard Offices	Customer flow and interaction with staff and others	All people 2 metres apart where additional risk mitigation measures are not possible – direct contamination	<ul style="list-style-type: none">- Customers to take note of and comply with all signage and to follow any instructions given by marina staff.- When they re-open there will be restrictions on the number of people allowed into the Marina Receptions & Boatyard Offices at any one time, these restrictions will be easily identified and must be followed. It should be understood that returning to normal business may take some time; please be understanding.- Customers are to remain in front of sneeze guards on marina reception counters.- In accordance with current guidance, face coverings should be worn by all customers when entering indoor areas at Premier Marinas.- 2m separation maintained between employees and customers (all personnel) and to remain on the left hand side when passing other people wherever possible. 1m+ separation with risk

Encouraging people to protect themselves and others

Should I leave my home and go to the marina?

Do you or any people you live with have COVID-19 symptoms?

- If yes – stay at home and follow government/NHS guidance on self-isolation.
- Are you or anyone you live with (who is planning to visit the marina too) designated by the NHS as ‘clinically vulnerable’ or ‘clinically extremely vulnerable?’
- If yes – follow government/NHS guidance.

Check that the marina is now open:

- Read all COVID-19 and other safety information provided by the marina and ensure that anybody who is going with you has also read that information.
- Make sure that you take with you all the provisions that you will need as they may not be available at the marina.

Travelling to the marina

- All government guidance should be adhered to at all times by all and in particular the National Lockdown Stay at Home Guidance.
- Wherever possible you should travel to the marina using your own transport and with members of your own household only.
- Consider cycling or walking if distance allows.
- Avoid using public transport unless there is no alternative. If no alternative follow government guidance.

How should I act during my time at the marina?

- The Marina Reception is currently closed. Please respect the marina's decision to do this as it has been done to protect our customers and our marina staff.
- Read and act upon all COVID-19 and other safety related information. There are QR Code posters in position at various locations to assist government test and trace
- The marina will have implemented new procedures which must be adhered to.
- Maintain social distancing measures when moving around the site.
- Wash your hands regularly and use any sanitiser units that have been installed for your use.
- If anyone on your boat develops COVID-19 symptoms return home immediately and notify the marina (by phone). When home, follow government/NHS guidance and self-isolate.

What should I do when I leave the marina?

- Follow any guidance provided by the marina.
- Everyone in your group should wash their hands and / or use any sanitiser units that have been installed for your use. (once washed do not touch any common surfaces on the way out)

Can I stay overnight on my boat?

- Overnight stays on board boats are currently not permitted in accordance with the government National Lockdown Stay at Home Guidance.
- Social distancing guidance states that people should remain two metres apart wherever it is possible. Where it is not possible, the guidance also states that a distance of one metre or more should be observed and further mitigation should be taken to reduce the risk of transmission.

COVID-19 Customer Safety in a Marina Environment

Premier Marinas Ltd

COVID-19 is transmitted in three ways:

- Direct person-to-person contact - if an infectious person breathes droplets on you or you pick them up through physical contact with an infectious person.
- Contact with a contaminated surface - if you touch a surface contaminated with the virus and then touch your nose, eyes or mouth, you may be infected.
- Aerosol transmission - fine droplets of liquid containing virus are breathed out, form an aerosol and are carried through the air. You may become infected if you breathe these in.
- If you are further away from someone there's less risk of catching the virus from droplets or aerosol transmission. However, distance isn't the only thing that matters.
- Duration - the longer you are close to an infectious person, the higher the risk.
- Fresh air - the risk is lower if you are outdoors, or in a well ventilated area,
- Direction - the risk is lower if you are not face-on with the infectious person

The risk of transmission is small at 2m and where possible, you should maintain 2m distance. If it is not possible to keep 2m distance, reduce the risk to yourself and others at 1m+ by taking suitable precautions such as:

- Limit the number of people or households that you come into contact with, e.g. avoid peak travel
- Sit / stand side by side or behind other people, rather than facing them
- Meet people outdoors, rather than indoors
- Keep interactions brief
- Wear a face covering in public places as per current government guidance, i.e. where you will come into contact with people that you wouldn't normally meet.
- Increase ventilation when indoors
- Avoid loud talking shouting or singing with others

To minimise the risk of transmission via surface contact, you should:

- Regularly wash your hands using soap and water or use hand sanitiser

- Avoid touching surfaces and do not touch your face
- Dispose of waste safely, including items such as paper face masks or gloves

In all cases, you must not go to work or attend other public spaces if you are symptomatic, or a member of your household is symptomatic.

Examples of additional mitigation measures are outlined in the government guidance.
